### Location:

Kala Amb,  
Himachal Pradesh,  
India

### Cluster 1

2006 - Ozone stepped into manufacturing by setting up its first Unit Investment in Kala Amb in North India. The unit focused on manufacturing stainless steel casted products like spiders, connectors, handle manufacturing, etc.

2010 - Unit 2 was established, focusing on manufacturing railing components and urban furniture. This unit enabled Ozone to establish itself in many business derivatives beyond hardware.

2012 - Unit 3 was established focusing on safes and fire-rated doors. All units are state-of-the-art with modern machinery and have international certification for manufacturing processes, environment, and quality waste management.

A fully automated Testing Lab has been set up recently, enabling in-house testing for manufactured products.

## Cluster 2

2023 - Ozone's manufacturing facility in Rajasthan Industrial Area - Ghiloth, marking the beginning of a new era in manufacturing for the group.

It's a state-of-the-art setup with the latest technology and machinery.

This unit offers an opportunity to introduce new product lines, and there are plans to add more specialized units in the future to expand Ozone's 'Made in India' product portfolio.

For over two decades, Ozone has offered Architectural Hardware Solutions with a diversified portfolio of more than 5000 products. These products are tested and certified internationally for quality, functionality, and performance.
